Sustainable Aviation Fuels
time for take-off

Maxime Vassieu

Maxime Vassieu is Business Development Manager within Axens' Renewables Product Line. With more than 20 years of experience in refining, sustainable fuels and low-carbon technologies, he supports the development and commercialization of solutions for SAF, e-SAF and bio-based chemicals.

Prior to his current role, Maxime held several technical leadership positions within Axens, including Lead Technologist for renewable fuels technologies. He holds a degree in Chemical and Process Engineering from École Centrale de Marseille and a Master's degree in Chemistry from Aix-Marseille University
