Sustainable Aviation Fuels
time for take-off

Txetxu Arzuaga

Txetxu Arzuaga has extensive experience in industrial innovation and energy transition and currently serves as General Manager of Petronor Innovación.

Previously, as Technology Director at ALBA Emission Free Energy, he contributed to the development of pioneering renewable fuels and low-carbon energy projects.

With extensive experience in technology development, industrial deployment, and strategic partnerships, he has led the development of technology platforms supporting renewable fuels, hydrogen, carbon circularity, and industrial decarbonization.
